Buy American Statement

Section 104(d) of the William F. Goodling Child Nutrition Reauthorization Act of 1998 requires schools and institutions participating in the NSLP and SBP in the contiguous United States to purchase to the maximum extent practicable, domestic commodities or products for use in meals served under the program. The legislation defines “domestic commodity or product” as one that is produced in the United States and is processed in the United States, substantially using agricultural commodities that are produced in the United States.

There are limited exceptions to the Buy American provision which allow for the purchase of foods not meeting the “domestic” standard, in circumstances when use of domestic products is truly not practicable. These exceptions, as determined by the School Food Authority (SFA), are:

1. “The product is not produced or manufactured in the U.S. in sufficient and reasonable available quantities of a satisfactory quality.”
2. “Competitive bids reveal the costs of a U.S. product are significantly higher than the non-domestic product.”

Suncup™ Juice products are produced and packaged in our own family-owned facilities located in Newark, NJ; Bethlehem, PA; Newnan, GA; and Phoenix, AZ and may contain non-domestic fruit juice concentrates as an ingredient in the finished 100% juice product.

There is limited, or no domestic fruit juice concentrate available to supply the needs of school nutrition and meet the 51% domestic content requirement. Therefore, Suncup™ 100% fruit juice products may contain non-domestic juice concentrates, as a portion of the ingredients.

Cost of domestic orange juice concentrates average 20 - 100% more than non-domestic. Domestic grape and apple juice concentrates average 20% or more and domestic pineapple juice concentrate is not available. Any supply of domestic concentrate is VERY limited and seasonal.

Suncup™ Juice products will meet the “Limited Exceptions” clause as identified in SP14-2012, “Procurement Questions Relevant to the Buy American Provision”, and as clarified in USDA Memos SP 24-2016 and SP 38-2017 “Compliance with and Enforcement of the Buy American Provision in the National School Lunch Program”:

Per SP 38-2017, SFA’s using one of the above exceptions will not need to request a waiver in order to purchase a non-domestic product. SFA’s must, however, keep this documentation justifying the exception(s).

Products included under this are referenced on the attached product list.

Product Formulation Statement (PFS) for Documenting Vegetables and Fruits

School Food Authorities (SFAs) should include a copy of the label from the purchased product package in addition to the following information on letterhead signed by an official company representative. Specific vegetable subgroups must be offered weekly and fruit must be served daily for the National School Lunch Program. For more detailed information on meal pattern requirements see the Nutrition Standards for School Meals.

Product Name: Farm & Orchard Paradise Punch 100% Vegetable & Fruit Juice Code: 402800

Manufacturer: Gregory Packaging, Inc. Serving Size: 4.23 fl. oz.

6. Vegetable Component

Please fill out the chart below to determine the creditable amount of vegetables.

Description of Creditable Ingredient per Food Buying Guide (FBG)	Vegetable Subgroup	Ounces per Raw Portion of Creditable Ingredient	Multiply	FBG Yield/ Purchase Unit	Creditable Amount ₁ (quarter cups)
100% Vegetable & Fruit Juice Blend	Other/Additional	4.23 fl. oz.	x	4.23 fl. oz.	2

Total Creditable Vegetable Amount:

<ul style="list-style-type: none">• FBG calculations for vegetables are in quarter cups. See chart on following page for quarter cup to cup conversions.• Vegetables and vegetable purees credit on volume served. Tomato paste and puree will continue to credit as a calculated volume based on the yields in the FBG.• At least 1/8 cup of recognizable vegetable is required to contribute towards the vegetable component or a specific vegetable subgroup.• The other vegetable subgroup may be met with any additional amounts from the dark green, red/orange, and beans/peas (legumes) vegetable subgroups.• School food authorities may offer any vegetable subgroup to meet the total weekly requirement for the additional vegetable subgroup.• Please note that raw leafy green vegetables credit as half the volume served in school meals (For example: 1 cup raw spinach credits as 1/2 cup dark green vegetable. Legumes may credit towards the vegetable component or the meat alternate component, but not as both in the same meal. The school menu planner will decide how to incorporate legumes into the school meal. However, a manufacturer should provide documentation to show how legumes contribute towards the vegetable component and the meat alternate component. See chart on the following page for conversion factors• The PFS for meat/meat alternate may be used to document how legumes contribute towards the meat alternate component.	Total Cups Beans/Peas (Legumes)	
	Total Cups Dark Green	
	Total Cups Red/Orange	
	Total Cups Starchy	
	Total Cups Other	.50

I certify the above information is true and correct and that 4.23 fl. oz. ounce serving of the above product contains 1/2 cup(s) of other/ additional vegetables.
